

**ISRM**

# STUDENT NETWORK

## WHAT IS OUR APPROACH?

We are an independent student community, closely associated with the Institute of Strategic Risk Management (ISRM), one of the leading institutes connecting security professionals and academics and promoting strategic risk management all over the world.

Through information exchange, social interaction, and professional development, we offer you a chance to be part of a fast-growing global community. You can start this journey with us through our website.

## WHO ARE WE?

We are the first international student network for students in the field of crisis and risk management, providing a platform to connect, share and grow.

The ISRM student network is built on three pillars:

**KNOWLEDGE,  
NETWORKING  
& OPPORTUNITY**

# WHAT DO WE OFFER?

We want to build an **INTERACTIVE COMMUNITY** that is both unique and engaging for students of risk and crisis management.

## We offer:

- Knowledge and information exchange through webinars and discussions
- Sharing information about new developments in the field of strategic risk and crisis management
- Opportunities to publish academic works and engage with peers and teachers
- An active database containing career information and job opportunities
- A platform to develop and expand your network

# OUR DREAM:

We want to build a flourishing community headed by our own **STUDENT COUNCIL** to allow students' voices to be heard around the globe.

# ABOUT THE ISRM:

The ISRM is one of the leading global institutes for strategic risk and crisis management. It was established in 2018 in order to create a global centre where practitioners, academics and policy makers can come together to share information, help progress and promote the underlying understanding and capabilities associated with strategic risk and crisis management, and develop their own personal and professional networks.

Currently, there are 16 active chapters of the ISRM around the world. The chapters are independent entities that represent the ISRM with their own authority. They hold their own activities and build and expand their own local and regional networks.

The ISRM offers training programs, monthly roundtables, webinars and many more events on a regular basis.
